CHARLES-TOWN, NOVEMBER 21.

BY the laſt Virginia Poſt, Letters of the 15th of September, are received, from Captain Robert [illegible], and ſome of the Paſſengers, on board the Ship New-Elizabeth, which ſailed from hence for London on the 30th of Auguſt laſt, adviſing, "That on the 3d of ſame Month died on board, "Mr. Charles Mill, of George-Town, Merchant," as well reſpected a young Gentleman as ever came into this Province: "That on the 11th, in Lat. 38. 10 Long. 62, the ſaid Ship "met with a violent Hurricane, in which ſhe was laid on her "Beam-Ends, had 7 Feet Water in her Hold, and loſt her "Main and Mizen Maſts; but Capt. Manley having freed her "of the Water, and got up Jury-Maſts, was proceeding on his "Voyage: And that on the Day of the Date of theſe Letters, "he ſpoke with and received conſiderable Aſſiſtance from "Capt. Loughton of the Invermay, bound from Glaſgow for "Virginia," ſince arrived in James River, by whom theſe Letters were brought thither.

Laſt Thurſday Night, we had a ſevere Thunder Guſt, which is very unuſual at this Time of the Year, when the Houſe of Col. Henry Laurens in Anſonborough (wherein his Brother Mr. James Laurens reſides) was ſtruck with Lightning. At the beginning of the Guſt, the Wind blew furiouſly from the S. W. attended with heavy Rain, and much diſtant Thunder and Lightning. At about half paſt Nine, the Houſe above-mentioned (which is ſituated near ſeveral others guarded with Points, but had none itſelf) received a dreadful Flaſh.—It ſeems yet undetermined, whether the electrical Fluid is drawn from or to the Clouds; in the preſent Inſtance this cannot be decided.——The North Chimney appears to have firſt received it, the weſterly Funnel whereof was ſtruck off, and many of the Bricks thrown to the Diſtance of upwards of 50 Yards; and at the Foot of the ſame Chimney, a great deal of Earthen Ware was broke to Pieces, and Pewter tinged black, rolled up, or melted in ſeveral Parts. A little below the Cieling of the ſecond Floor, it ſeems to have divided itſelf into ſeveral Streams, leaving evident Marks of its Paſſage; and where it went through the Floors the Boards were forced upwards. Theſe ſeveral Streams did almoſt incredible Damage in the Four Northernmoſt Rooms, (two above and two below) wherein three large Looking-Glaſſes, and a ſmall one, were beaten all to Shivers; the Silver Handles of Knives and Forks and other Plate, melted; two Setts of China in a Cloſet were ſo broke as if they had been pounded in a Mortar; a Braſs warming Pan and a Tin japanned Waiter rolled up (as if done by Hands) ſplit, and melted on the Edges where rent; Abundance of Furniture, Glaſs, and Pictures deſtroyed; a very large China Bowl thrown off a Book-Caſe, broke, and the inner gilt Border tinged black, whilſt the Gilding on the Outſide remained untouched; different Kinds of Metals, Boards, Plaiſtering, &c. tinged of the ſame Colour, yet many others and a Harpſichord received no Damage. Its expenſive Force, was ſo great, as to drive ſeveral Pieces of Wood through the Partitions and Windows. Through the Cloſet adjoining the Chimney, it ſeems to have paſſed into the two Southern Rooms, in one of which it beat a Barometer all to Pieces, ſo that very little of the Glaſs Tube could be found, and *that* was melted on the Outſide: In the ſame Room the Weight of a Clock, of about 14 lb. ſtanding in the S. E. Corner was unhung, though fixed on with a Screw an Inch and half long; the open Work on both Sides of this Clock were beat inwards; the ſame happened to the Glaſs Sides of another Clock in the N. W. Corner of the Northernmoſt Room, yet the Movements in either did not appear to have received the leaſt Injury. But to give all the remarkable Particulars would be endleſs.—This however we muſt not omit, that though ten of Mr. Laurens's Family were in different Parts of the Houſe, and a Child in Bed in one of the Rooms where the moſt Damage was done, yet, by the wonderful Providence of God, not one Perſon was hurt.——In the Kitchen, which is at ſome Diſtance from the Houſe, the Servants were more ſenſible of the Shock, and one Negro Woman had one of her Arms lamed by it.

On Saturday arrived here, in the Beaufain, Capt. Curling, from London, the Hon. John Fewtrell, another of His Majeſty's Aſſiſtant Judges for this Province, Mrs. Fewtrell; the Family of the late Hon. Benjamin Heron, of North-Carolina; Mr. Hamilton, an Attorney at Law; Mr. Robert Mackenzie, jun. Mr. Arthur Downes, Watch-maker; Miſs Johnſton, Mr. Kinſley, &c.

On Sunday a Number of Paſſengers arrived from Scotland, in the Brigantine Jenny, Capt. Eſon; amongſt them Mr. Robert Lindſay of this Town.

The ſame Day Colonel Robert Rivers, of James-Iſland, returned from Bermuda, in the Sloop St. George, Capt. Juſkin.

On Tueſday ſailed with his Majeſty's Mails for Falmouth, the Eagle Packet Boat, commanded by Capt William Nicholls.

Among the Natives of this Province that have been graduated Phyſicians, we omitted to mention, that "Doctor William "Roberts, who arrived here lately from Burrowſtounneſs, in "the Lillies, Capt. Angus (with Mrs. Roberts, and Miſs "Marſhal) had alſo had the higheſt Degrees in Philoſophy and "Medicine, conferred on him, in Scotland."

The Price of Rice is not yet fixed. The Planters ſtand for 70*s.* the Gentlemen in Trade for 60*s.*

Although Indian Corn is ſold in our Market for Seventeen Shillings and Six Pence to Twenty-five Shillings per Buſhel, conſiderable Quantities are now ſhipping off.

Yeſterday Mr. Thomas Hodges, of Antigua, with ſome other Paſſengers, arrived in the Brigt. Mary, Capt. Leaveraft, from that Iſland.—Where, when they left it, there was 60,000 Buſhels of Indian Corn for Sale, and offered at Twelve Shillings and Six Pence, this Money, per Buſhel.—The laſt Accounts from Jamaica, ſay, the ſame Grain is almoſt as cheap there.

Laſt Tueſday died Mrs. Mary Bull, a Native of this Province, aged 72 Years. She was the Relict of John Bull, Eſq. who was Brother to the late and Uncle to preſent Lieutenant Governor.

QUEBEC, *October* 10.

ON Thurſday the 26th of September laſt, between the hours of four and five in the evening, happened the following extraordinary accident, viz.

Upon the arrival of a young man, in a caleche, at one Joſeph Renaud's door, in the Pariſh of St. Peter's, South-River, the earth opened, ſwallowed up, and buried him under its maſs, together with the carriage and two horſes. There were in the houſe a woman, two girls, and a young lad, the latter perceiving this extraordinary accident, cried out, *let us ſave ourſelves*, at the ſame time going out of the houſe to make his eſcape, when he ſaw the earth again opening about 18 feet wide, which obliged him to retire, but the woman, who likewiſe endeavoured to ſave herſelf, was ſwallowed up; the lad was returning into the houſe where the girls had remained, in the greateſt conſternation and fright, when on a ſudden it fell down, was carried about the diſtance of an acre and an half from where it ſtood, and buried in the river, under an enormous maſs of Land, which prevents any part of it being ſeen except the end of one of the rafters; notwithſtanding the lad was only found up to the ſhoulders in the earth, and whoſe doleful cries brought ſome people to his aſſiſtance, who had almoſt dug him out, when the barn, which ſtood at a greater diſtance than the houſe, fell and was likewiſe ſwallowed up in the abyſs; this obliged the people to leave the lad, who continued to call for their aſſiſtance; but a little time after, notwithſtanding the danger, they returned and ſaved him. The immerſion has formed a bank at leaſt three acres broad, the height of which exceeds the ſhore by about 15 feet; it has ſtopped up the channel of the river in ſuch a manner, that the waters have ceaſed to re-flow the 29th, and left it quite dry below the bank.

It is a difficult matter to diſcover the cauſe of ſo extraordinary a thing, as there was not the leaſt ſign of an earthquake, and the ſpot is a hill, the declivity of which to the river was very ſteep. Yet, as the Land formed a ſmall creek, againſt which the river ſtruck, and had cut a very deep channel therein, it is preſumed, that having, by degrees, waſhed away the Land, which is of a very ſoft clay, it had in courſe of time, made a ſubterraneous paſſage; this appears the more probable, as in the place were the Land ſunk, there appeared a deep pit of about ſixty feet perpendicular.

It is to be obſerved, that ſome days before this accident the water ſubſided to the maſter of the houſe to have ſunk, and a part had fallen down.

On the whole, we leave to the conſideration of perſons of better judgment, to give ſome more natural reaſons for the above fatal event.

PHILADELPHIA, OCTOBER 24.

By Letters, &c. from the Bay of Honduras, we learn, that the Famine ſtill continue to continue, a great famine in that country, the Locuſts having overſpread the country in ſuch a manner, that they have eat up every green thing; and it is ſaid in ſome parts that they have on the ground a foot thick.—At Ambergreaſe, it is ſaid, that 17,000 Indians had died for want, and in other parts of the country thouſands were dead and dying; ſo that it was computed that upwards of 80,000 Indians had died with famine when the laſt accounts came away.—Proviſions were very ſcarce at our ſettlements in the Bay, ſo that many veſſels ſailed from thence with very ſhort allowance: the famine is alſo great among the Spaniards, they having ſent to Honduras for flour.
